Technical Services L.L.C

# Company Profile

SPAVE is an Abudhabi and Dubai based enterprise, Composed of a young and dynamic team.

SPAVE Technical Services L.L.C is an Abudhabi and Dubai based enterprise, started in 2019. Composed of a young and dynamic team, SPAVE serves high quality works and services. SPAVE specializes in all construction and interior designing works and executes them in the most efficient manner. We have exceptional commercial interior designers who conceptualize spaces for businesses. Today SPAVE deals with many small and medium size projects which include hospitals, clinics, cafes, restaurants, retail shops, etc.

Saving space and beautification are the priorities of every interior designer. These priorities are key to SPAVE. 'SPAVE' itself stands for 'Space Saving'. Day by day, residences and commercial spaces are getting more and more structured and beautiful with the help of upgraded technologies. SPAVE approaches customers with mind-blowing ideas that are something of its own. SPAVE aims to nurture and build strong client relationships. We are also capable to rise to any challenges by valuing innovation. SPAVE Technical Services L.L.C is the starting point to a true lifestyle, unique yet tasteful, but most importantly affordable yet

# Our Mission

SPAVE's mission is to deliver long-lasting quality work, to execute projects without leaving room for complaints and to design creative spaces with minimum utilization.

# Our vision

SPAVE's vision is to be the leading Interior design and technical supporting company in UAE, sought after by potential clients and employees for our track record in reliable execution, cost-effectiveness, and world-class technical sophistication.

# Our Team

Our employees are flexible and develop their skills and knowledge on the variety of projects we undertake. Our management team has collectively accumulated their experience in the industry and is fully involved in the development, procurement, project management and administration of the company. SPAVE is full-fledged with manpower and we take pride in it. Every team member is well-trained in their respective areas of work, thus increasing the expertise. Our dedicated team works on-demand to assist with the client's specific project requirements and deadlines. All our projects are monitored from the beginning to end. SPAVE makes the required changes in the work execution after gathering feedback from the clients and customers. Every staff member is well aware of the company policies and work accordingly. Our clients can always be assured that qualified and experienced individuals are serving them.

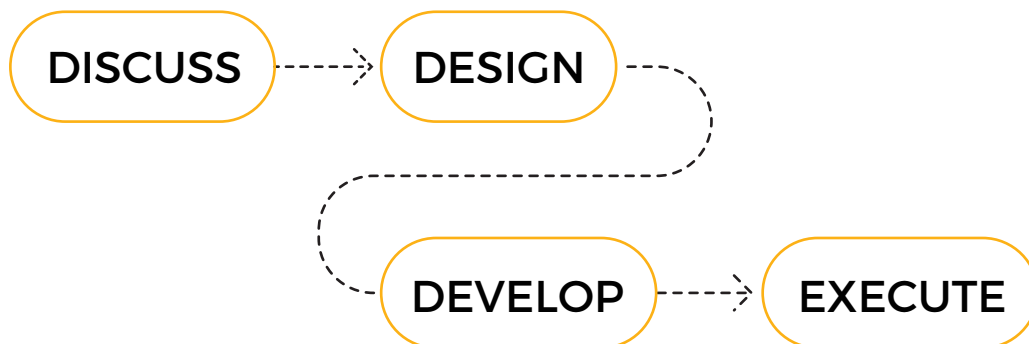

Our employees are our most important asset. Setting and maintaining high standards in every work done is crucial and our whole team exerts an effort to adhere it. The skills, dedication and energy exhibited by them add to making SPAVE the success story it is today.

Safety is our prime concern. We always make sure that a safe working environment is created for our employees.

# Why choose SPAVE?

## How we work

# Services offered

## Civil Works

## Decor Works

---

SPAVE offers an impressive range of décor ideas for residences as well as commercial buildings. Home furnishing ideas, modular furniture, kitchenware, bed and bath products, false ceiling, partitions, curtains and blinds fall under this category. Our stylists create décor works ranging from traditional to the modern.

## Flooring

---

SPAVE has flooring of every choice. Whether it's laminate or veneer, carpets or tiles, hardwood or PVC, SPAVE has them all. Our specialists help to find the perfect floor for the space.

# Painting Contracting

---

SPAVE provides services for painting, stencils, wall textures, wallpapers and polishing. We just don't build walls; we create pieces of one's style.

# Waterproofing

---

Our well-trained water proofers aim at bathrooms, roofs, basements, terraces etc. and develop solutions in order to create structures that lack leakages and dampness.

# Glass and Aluminium Fabrication

---

SPAVE promises quality products and services in the fields of Aluminum fabrication works, structure glazing, toughened glass, mirrors, partitions, cabinets and cladding. Best quality of glass and aluminium fabrication works are provided to customers as per their requirements. We experiment a variety of glass works with the application of innovative designs and new technologies. We offer assistance with design solutions, technical support and customer service support from planning to delivery.

# Epoxy Flooring

---

We are successfully servicing in the UAE with utmost excellence and unrivalled care for customer satisfaction. We know exactly what fits the floor. We offer an array of colours, patterns and finishes to add personality to the space. Our high quality Epoxy products backed up with our professional service, results in stunning floors suitable for all spaces. Our team undertakes the requirements of the customers and use high level of technical expertise to complete the work in no time. When it comes to flooring for hospital clean rooms, parking lots, garages, factories, retail stores and restaurants our distinctive custom epoxy floors truly stand out from other options for several reasons. Our range of garage floor paint products from BASF, JOTUN, HENKEL, NATIONAL or FOSROC PAINT are also an add up to our successful quality service.

# MEP works

---

MEP (Building services and facilities) consists of installing air conditioning systems, water supply and drainage systems, firefighting systems, electrical power and lighting systems. SPAVE holds excellent expertise in this domain. Our multifaceted technicians and engineers develop effective designs through coordination and precise execution of the work. Our team researches the best design according to the principles of engineering with the required specifications. We plan and design with great accuracy, construct and operate. Our technicians are highly qualified in a broad range of disciplines involved in MEP works, which include dynamics, mechanics, chemistry, fluids, thermodynamics, heat transfer, electricity and computers.

## HVAC works

---

Along with ventilation and air conditioning, SPAVE also offers indoor air quality control services which play an important role in making a space comfortable and functional. HVAC is very important in residential structures like apartment, hotels, industrial and office buildings such as skyscrapers and hospitals, commercial buildings like shopping malls, retail stores, showrooms, etc. HVAC is given importance in all areas where there is greater foot flow and where safe, healthy building conditions need to be regulated.

## Plumbing and Sanitary

---

Plumbing infrastructure is critical to public health and sanitation. Our experts develop effective plumbing and sanitation designs that save time, money, work, and avoids future repairs. Our team is experienced in residential and commercial plumbing, with excellent knowledge of kitchen, toilet and bathroom plumbing.

## Electrical Works

---

SPAVE plans for the client's present electrical needs and for what will be needed in the future. We provide support for design and maintenance with high standards of safety.

## IT solutions

---

SPAVE offers IT consulting and custom technology solutions to meet the business needs. We provide telecommunications services and support telecommunications products and services. We support the network infrastructure for all data/voice/video communications. SPAVE engineers final designs for network infrastructures which include security. The demand for security and surveillance is soaring in today's world. Understanding it's importance, we develop customized surveillance solutions for commercial buildings and residences. Our team also aims to leverage internet technologies to support business functions and to establish remote area capabilities.

## Fire Fighting

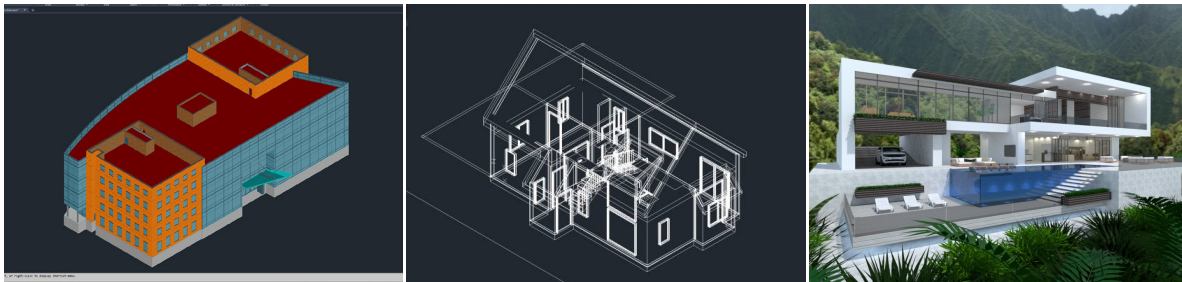

---

SPACE Technical Services L.L.C offers a total solution in Fire Detection, Fire Alarm, and Fire Extinguishing System for the protection of the entire range of Industries and Applications such as - power plants, office building, residential buildings, and factory sheds, etc. One of our main functions Design, Supply, and Installation of Fire Fighting System. We provide a total fire-fighting solution in most prestigious developments around the UAE.

## Auto Cad and 3d Designing

---

Our designers use AutoCAD drawings and 3D rendering tools making the whole planning process simple and smooth. Our feature-enriched and reliable 3D models visually capture designs from multiple angles and layouts making it easy for the clients to understand and simultaneously make any kind of change.
